

Edunia

PRIVATE VILLA

A breathtaking view of the island's iconic harbor is just one reason to vacation in this chic four bedroom contemporary villa in Lurin. Stunning sunsets, proximity to Gustavia's bistros and boutiques, and a short drive to popular Gouverneur Beach round out the list. The kitchen and dining area are adjacent to the spacious air-conditioned living area that opens to a terrace furnished for outdoor living and dining. Just beyond, a deck with chaise lounges and umbrellas, borders an extra-long heated infinity pool. Everything faces the sea. All four air-conditioned bedrooms have en suite baths, king beds (which can be converted to twins) and sea views. Two are on either side of the living room; another has direct access to the pool via a slider, and the master features its own terrace and garden. The modern minimalist décor is complemented with works by the American contemporary artist Eduardo Kac. There is U.S. satellite TV service in the living area.
