

W View

PRIVATE VILLA

Beautifully situated in the St. Jean hillside, this striking four bedroom villa is an idyllic vacation home just perfect for sharing with family and friends. Kids will love the robust media amenities, U.S. satellite and Apple TV service, a home cinema and Spotify for their favorite music. They will be wowed with the gorgeous pool as well. The main pavilion, which encompasses spacious living and dining areas and a well-equipped kitchen, opens and blends with the outdoor living space.

An expansive multi-level deck includes a graceful ajoupa-like structure that provides shade for relaxing, dining and a portion of the heated pool. A master (king) bedroom is housed in a separate bungalow to the right of the main house. It has an en suite bath with a private WC, indoor and outdoor showers, and spectacular views. Two en suite guest bedrooms (king and twins convertible to king) are in a bungalow on the opposite side and boast views of the hills and the sea. The fourth en suite bedroom (king) is located on the lower level and looks out to a sweeping island panorama. All bedrooms have TVs with satellite and Apple service. The home cinema and a fitness room are also on the lower level. Villa W View's contemporary design and decor is tempered with an eclectic mix of traditional furnishings and mid-century pieces. The result is chic and comfortable.
